

Walking & Bicycling Questionnaire for Candidates

This State candidate questionnaire was developed by Hawaii Bicycling League, Kauai Path, Maui Bicycling League, and PATH - Peoples Advocacy for Trails Hawaii to address current state issues of importance for walking and bicycling. Your responses will be made available online and distributed to our organizations' email networks. Your response will NOT be used as the basis for any endorsements - your response will be displayed verbatim. Please respond by July 25, 2016. Late responses will be accepted and will be posted as promptly as practical. Thank you!

Name *

Fern Anuenue Rosenstiel

Candidate for *

State House of Representatives District 14

Email *

votefern@yahoo.com

1. I believe that walking and bicycling should be safe transportation options available to all and we need to drastically reduce injuries and deaths of people who walk and bike. (YES or NO, and any comments) *

Yes

No

Comments?

2. "Safe Passing" laws require that motorists provide sufficient space (3-4 feet for cars) when passing bicyclists; 32 states have such laws. I support the adoption of a "Safe Passing" law in Hawaii with specific passing distances. (YES or NO, and any comments) *

Yes

No

Comments

3. Hawaii received \$171 million in federal transportation funds in 2016. While only ~2% of this amount is reserved for walking and bicycling projects, the state Department of Transportation has the option to use larger portions of these funds for walking and bicycling projects. I support increased use of Hawaii's federal transportation funding allocations for bicycle and pedestrian projects to make walking and bicycling safer. (YES or NO, and any comments) *

Yes

No

Comments

I support funding these kinds of projects. I also understand that we need more money and that the DOT is already stretched for funds. I want to work on new ideas to bring money in that don't further stress local families but add to the transportation budget and thus these kinds of walking and bicycling projects.

4. The state has a "Complete Streets" law designed to create equality of access for all road users (people walking, biking, driving, and taking transit) by requiring streets to be planned, designed, operated, and maintained to enable safe, convenient and comfortable travel for users of all ages and abilities, regardless of their mode of transportation. I support the strong implementation of "Complete Streets," including creating procedures that ensure full "Complete Streets" consideration on every project. (YES or NO, and any comments) *

Yes

No

Comments

5. The state Department of Transportation's 2003 Bike Plan Hawaii provides a plan for development of a network of bicycle facilities that have not been fully implemented. I support the immediate updating of this 13-year-old plan in order to integrate new bikeway planning practices and make it more applicable to current transportation and development conditions. (YES or NO, and any comments) *

Yes

No

Comments

6. Eighty-one percent of Hawaii commuters drive as their primary way of getting to work and 12% walk, bike, or take public transportation. I support the establishment of specific targets to reduce dependence on private automobile transportation and increase bicycling, walking and transit use, as Kauai County has done. (YES or NO, and any comments) *

Yes

No

Comments

7. Describe ways that you have supported safer walking and bicycling in your community. (short answer) *

While I am a first time candidate and have not officially supported any such projects in legislature, I have remained involved in the community conversations and meetings around transportation issues in our district, the long term planning and the future of transport for Kaua'i over the last few years. I am a strong supporter of the coastal bike path here on east Kaua'i and its expansion. I support improved bicycling and walking infrastructure to encourage movement, reduce traffic and carbon emissions and grow community.

8. The State has the Bike Plan Hawaii (2003) and the Statewide Pedestrian Master Plan (2013) for bicycle and pedestrian improvements. What will you do when elected to implement these plan? (short answer) *

I will meet with those that have been invested in the development of these plans and understand where support is needed and where I can assist best in the implementation as needed.
