

Walking & Bicycling Questionnaire for Candidates

This Walking & Biking Questionnaire for State Candidates was developed by Hawaii Bicycling League, Kauai Path, Maui Bicycling League, and PATH - Peoples Advocacy for Trails Hawaii to address current state issues of importance for walking and bicycling. Your responses will be made available online and distributed to our organizations' email networks. Your response will NOT be used as the basis for any endorsements. Your response will be displayed verbatim as you provide. Please respond by July 11, 2018. Late responses will be accepted and will be posted as promptly as practical.

Thank you!

1. I believe that walking and bicycling should be safe transportation options available to all and we need to drastically reduce injuries and deaths of people who walk and bike. (YES or NO, and any comments) *

Yes

No

Comments?

2. Hawaii received \$178 million in federal transportation funds in 2018, while only 2% of this amount is reserved for walking and bicycling projects, the state Department of Transportation has the option to use larger portions of these funds for walking and bicycling projects. I support increased use of Hawaii's federal transportation funding allocations for bicycle and pedestrian projects to make walking and bicycling safer. (YES or No, and any comments) *

Yes

No

Comments

I support this if DOT can afford it; they also have a huge demand to calm and improve traffic flow.

3. The state Department of Transportation's 2003 Bike Plan Hawaii provides a plan for development of a network of bicycle facilities to enable those of all ages to cycle for transportation. The plan has not been fully implemented. I support the immediate updating of this 15-year-old plan in order to integrate new bikeway planning practices and make it more applicable to current conditions. (YES or No, and any comments) *

Yes

No

Comments

I support this if DOT can afford it; they also have a huge demand to calm and improve traffic flow.

4. Eighty-one percent of Hawaii commuters drive as their primary way of getting to work and 12% walk, bike, or take public transportation. I support the establishment of specific targets to reduce dependence on private automobile transportation and increase bicycling, walking and transit use, as Kauai County has done. *

Yes

No

Comments

5. Vision Zero is a government commitment to achieve zero traffic fatalities tied with a comprehensive approach and specific actions in engineering, enforcement, and education. I support the adoption of a "Vision Zero" policy at the state level and development of a comprehensive plan with specific actions to achieve zero traffic fatalities. (YES or No, and any comments) *

Yes

No

Comments

6. Red light and speed enforcement cameras have been proven to improve traffic safety for all roadway users (motorists, bicyclists, and pedestrians) by reducing incidents of red light and speed violations. I support the implementation of red light and speed enforcement cameras at high injury intersections and corridors and in school zones. *

Yes

No

Comments

7. Describe ways that you have supported safer walking and bicycling in your community. (short answer) *

I am a regular bus rider and bike rider. I have advocated for an improved bus system, eg, got an express stop added in Waianae, complained about canceled bus routes, lack of bus drivers, problems at bus stops, etc. Getting out of my car and encouraging others to do so will support safer walking and bicycling.

8. The State has the Bike Plan Hawaii (2003) and the Statewide Pedestrian Master Plan (2013) for bicycle and pedestrian improvements. What will you do when elected to implement these plan? (short answer) *

Continually advocate for my mother's dream of implementing the City's plan to connect all city parks with multi-use paths, and for the plans above to be implemented.
