

Walking & Bicycling Questionnaire for Candidates

This Walking & Biking Questionnaire for State Candidates was developed by Hawaii Bicycling League, Kauai Path, Maui Bicycling League, and PATH - Peoples Advocacy for Trails Hawaii to address current state issues of importance for walking and bicycling. Your responses will be made available online and distributed to our organizations' email networks. Your response will NOT be used as the basis for any endorsements. Your response will be displayed verbatim as you provide. Please respond by July 11, 2018. Late responses will be accepted and will be posted as promptly as practical.

Thank you!

1. I believe that walking and bicycling should be safe transportation options available to all and we need to drastically reduce injuries and deaths of people who walk and bike. (YES or NO, and any comments) *

Yes

No

Comments?

2. Hawaii received \$178 million in federal transportation funds in 2018, while only 2% of this amount is reserved for walking and bicycling projects, the state Department of Transportation has the option to use larger portions of these funds for walking and bicycling projects. I support increased use of Hawaii's federal transportation funding allocations for bicycle and pedestrian projects to make walking and bicycling safer. (YES or No, and any comments) *

Yes

No

Comments

3. The state Department of Transportation's 2003 Bike Plan Hawaii provides a plan for development of a network of bicycle facilities to enable those of all ages to cycle for transportation. The plan has not been fully implemented. I support the immediate updating of this 15-year-old plan in order to integrate new bikeway planning practices and make it more applicable to current conditions. (YES or No, and any comments) *

Yes

No

Comments

4. Eighty-one percent of Hawaii commuters drive as their primary way of getting to work and 12% walk, bike, or take public transportation. I support the establishment of specific targets to reduce dependence on private automobile transportation and increase bicycling, walking and transit use, as Kauai County has done. *

Yes

No

Comments

5. Vision Zero is a government commitment to achieve zero traffic fatalities tied with a comprehensive approach and specific actions in engineering, enforcement, and education. I support the adoption of a "Vision Zero" policy at the state level and development of a comprehensive plan with specific actions to achieve zero traffic fatalities. (YES or No, and any comments) *

Yes

No

Comments

6. Red light and speed enforcement cameras have been proven to improve traffic safety for all roadway users (motorists, bicyclists, and pedestrians) by reducing incidents of red light and speed violations. I support the implementation of red light and speed enforcement cameras at high injury intersections and corridors and in school zones. *

Yes

No

Comments

Implementation will be the key factor here on how we will achieve this concept.

7. Describe ways that you have supported safer walking and bicycling in your community. (short answer) *

Working for the Maui County Council, we worked to push forward funding for the Northshore Greenway and also the West Maui Greenway. We helped to facilitate meetings and also to ensure appropriate funding levels were secured. Funding was also made available for sidewalks near schools.

8. The State has the Bike Plan Hawaii (2003) and the Statewide Pedestrian Master Plan (2013) for bicycle and pedestrian improvements. What will you do when elected to implement these plan? (short answer) *

The bottom-line issue is securing funding to implement the plan. I will be a champion for projects in my community that will help to improve a walkable and bikeable community by requesting funding for the specific projects over a period of time. Action will not happen overnight, but will take efforts over a long-period of time.
